-

Experience

City of Philadelphia Philadelphia, PA

APRIL 2024 – PRESENT

Programmer Analyst 3

CICS: Election Payments Process. Responsible for processing election payments for poll workers, inspectors, and polling locations. Streamlined processes to improve efficiency and reduce the turnaround time for check payments.

Adtrack and C400 Rewrite: (Procurement web applications)- convert front-end from Access to .NET using VB.NET code, CSS, and HTML5. Generated EDR schema for database, report generation, and created a user manual.

JULY 2023-APRIL 2024

Programmer Analyst 2

Election Payments Process: Developed a system for tracking and archiving payments for auditing purposes and created a timeline for receiving data and completing the check payment process.

Adtrack Rewrite: Conversion of front-end web application to .NET Framework through rewrite of existing code from Microsoft Access-based content to a web application with a user interface and design that is more responsive and user-friendly. Hard-coded embedded style sheets into existing JavaScript interfaces to provide uniformity in design and layout.

APRIL 2021 – JULY 2023

Programmer Analyst 1

Assist in supporting the city's financial and accounting systems FAMIS and adpics. Billions of dollars in transactions for a system with thousands of users. Involved in documenting user requirements, designing, coding, and testing computer programs and systems. Develop technical specifications and implement designs in code.

Commonwealth of PA

SEPTEMBER 2019-APRIL 2021

Income Maintenance Casework

Philadelphia, PA

Helped community members access public assistance, interviewed applicants, verified income, and kept records.

Biotelemetry

MARCH 2019-SEPTEMBER 2019 (TEMPORARY CONTRACT)

Insurance Verification

Malvern, PA

Ensured patient eligibility for healthcare coverage and eligible services, contacted insurance providers and doctor offices for information regarding coverage and medical scripts.

Independence Blue Cross

SEPTEMBER 2013 – JANUARY 2019

Medicare Appeals Specialist

Philadelphia, PA

Handled appeals for prescriptions, medical services, and equipment according to insurance rules. Adhered to HIPAA and CMS regulations throughout the process. Ensured timely and accurate filing, resolving issues with payments, claims, and pharmacy benefits.

Education

DECEMBER 2017

M.S Software Engineering Management / Strayer University – Online Campus

Graduated with a 3.9 GPA while working full time. Coursework focused primarily on applying management principles to software development and maintenance of projects. Emphasis on planning, coordination, and control to ensure efficient and effective project delivery.
